

Photography Videotaping Policies 2022-2023

Child's Name _____

Please Print

This document is for clarity on the policy concerning the photographing or videotaping of your child (children) in the preschool by the staff members of Stallings UMC Preschool.

Photographs of children are especially important to our program – in documentation- of your child's areas of growth and development in all areas- fine motor, gross motor, social, etc. Our observations and notes of each child's development are recorded daily. Also, an extensive weekly newsletter to you our parents is composed of selected photos and the children's verbal comments. Documentation in this manner gives you as a parent a much clearer understanding of the learning activities experienced each week at preschool.

During the preschool year sometimes a photo or two will be selected to post on our church/preschool website or on social media. Your child is never identified by his or her name in these occasions. Most photos include two or three children involved in an activity.

Please contact Barbara Stegall, preschool director, if you have any questions or concerns.

Thank You.

I have read this document and signing it, I support the policy of photos and documentation.
